Glass Workers Consent to Keep the  
Plants Closed.

INDIANAPOLIS, Ind., Aug. 29.—Representatives of the glass manufacturers and the window glass workers of the country met here to reach an agreement yesterday whereby a postponement of lighting the fires might be effected.

The manufacturers had agreed to open their mills on September 15, but on account of the fact that there is a heavy stock on hand and that further production would necessarily lead to a reduction in prices, it was suggested that the time be postponed. Trouble was anticipated with the labor assembly represented by President Simon Burns, for all such suggestions have been met with strong opposition and with a demand that the fires be lighted according to the terms of the agreement between the companies and the employees.

Notwithstanding his former attitude, President Burns readily acquiesced in a postponement and it was agreed that the cooperative manufacturers would not light their fires until October 15. It was also agreed that the Independent and American Company should not resume until November 15.

An Advocate of Fasting.  
HUNTINGTON, W. Va., Aug. 29.—Rev. Mr. McGlathery, a prominent minister of this city, believes that fasting is a cure for almost all ills. Two months ago he weighed 200 pounds, was afflicted with rheumatism in all forms, heart trouble, insomnia, and divers other ills. Today he says he feels like a new man, at 150 pounds. In the two months anticipated he has lost 50 pounds, but he has not lost a day, and that a very light one. He says that when he is reduced to 150 pounds he will begin eating two meals daily, but that never as long as he lives will he eat a meal in the morning. One year ago Rev. Mr. McGlathery tried bicycling to reduce his flesh, but it increased rather than diminished his weight. He would frequently ride twenty to thirty miles before breakfast. He has quit bicycling now.

## TRADE OF NEARBY ISLANDS

They Show a Desire to Deal With  
the United States.

Fifty-seven Per Cent of Jamaica's  
Total Exports Come to This Country—A Significant Statement From  
the Treasury Bureau of Statistics.

The growing disposition of the islands and countries adjacent to the United States, and especially those of the West Indian group, to trade with the United States is illustrated by some figures just received by the Treasury Bureau of Statistics, regarding the commerce of Jamaica. These are contained in a British colonial report on Jamaica for 1899-1900. They show that the exports of Jamaica 57 per cent were sent to the United States in 1896, while in 1900 the share sent to the United States was 65.6 per cent. To the United Kingdom the share in 1896 was 27.6 per cent, and in 1900 19.6 per cent. The report says:

"The value of the exports from Jamaica which go to the United States continues to increase in total value and in proportion to the whole amount of the trade. The exports to the United Kingdom diminish steadily. This tendency is largely due to the development of the fruit trade, which has hitherto been almost exclusively with the United States."

The increase in exports to the United States has been accompanied by an increase in the percentage of Jamaican imports, which come from the United States. In 1896 the percentage of Jamaican imports taken from the United States was 43.9 per cent, and in 1900 42 per cent, while the proportion from the United Kingdom, which in 1896 was 48.1 per cent, was in 1900 47.2 per cent. In neither imports nor exports does the trade with Canada show any marked increase. The following statement from the report shows the movements in the more important articles of imports and exports, and especially the share of that trade with the United States:

"The principal named imports from the United States and to the United Kingdom, in the proportion of 8 to 1. Fruit, almost exclusively to the United States, and rum to the United Kingdom. Of the coffee, seven-eighths to the United States, Germany, and the United Kingdom, in the order named. Logwood, to seven countries, nearly two-thirds going to the United States and the United Kingdom, and the remainder principally to France and Germany. Lesser products of some importance, which have increased more in proportion than any of the main staples, are cocoa, coconuts, and ginger. Of the cocoa, nine-tenths is shipped to France, the United Kingdom, and the United States, and the remainder to other countries. Of the coconuts, almost exclusively to the United States. Most of the ginger to the United Kingdom and United States, in the proportion of about 2 to 1."

"Taking each of the four classes under which imports are now arranged, live animals, food, drink, and narcotics were valued at \$267,283, as against \$274,094 in 1899. Among animals, it is interesting to note in connection with bee-keeping, the United States and the United Kingdom, in the proportion of 8 to 1. Fruit, almost exclusively to the United States, and rum to the United Kingdom. Of the coffee, seven-eighths to the United States, Germany, and the United Kingdom, in the order named. Logwood, to seven countries, nearly two-thirds going to the United States and the United Kingdom, and the remainder principally to France and Germany. Lesser products of some importance, which have increased more in proportion than any of the main staples, are cocoa, coconuts, and ginger. Most of the ginger to the United Kingdom and United States, in the proportion of about 2 to 1."

"Imports of raw materials, especially of sugar, which has increased more in proportion than any of the main staples, are cocoa, coconuts, and ginger. Of the cocoa, nine-tenths is shipped to France, the United Kingdom, and the United States, and the remainder to other countries. Of the coconuts, almost exclusively to the United States. ## SOCIAL AND PERSONAL

Secretary Root left Washington yesterday for his summer home at Southampton, L. I.

Bar Harbor's cleverest affair of the season was given last night at the Casino before an audience of nearly 1,000 people. It was the vaudeville entertainment for the benefit of the Bar Harbor Hospital, and was the result of Mrs. A. C. Barney's work for weeks past, assisted by Mrs. Burton Harrison and several other social lights of the place. The performance opened with a gaudy dance by Miss Draper, Miss Patterson, Miss Ames, Miss Potter, Miss Whelan, Miss Theobald, the Misses Miller, Miss Lawrence, Miss Pierce, Miss Richardson, Miss Gourley, Miss McCauley, and Miss Grant. Then followed a series of tableaux representing the various groups of the Chinese with all the distinctness of costume and scenic effect that could be suggested. Preceding, Mrs. Martha Strickland, dressed in appropriate costume, sang the romance, "The Chinese Girl." The Chinese group, "La Vie," Mrs. Condon, Mrs. Todd, Mrs. Allison, Mrs. Ripley, "Conquerer," Mrs. Huger Pratt, Mr. Cushman, Miss Mildred Morris, Ralph Pulitzer, "La Toilette," Miss Davenport, Louise Gaertner, Miss Taylor, Miss Strickland, "La Danse," Miss Brewster, Louis von Gaertner, Miss Conover, Mr. Pulitzer, "Berger et Berger," Mr. Hutchinson, Miss Linn, Miss Draper, Miss Patterson, Miss Ames, Miss Potter, Miss Whelan, Miss Theobald, the Misses Miller, Miss Lawrence, Miss Pierce, Miss Richardson, Miss Gourley, Miss McCauley, and Miss Grant.
